$$\underline{1 - 14 + 9 - 7} = \underline{7 - 8 - 15 + 5}$$

A diagram showing a balance scale. A horizontal line represents the beam, with a triangle representing the fulcrum in the center. The number -11 is written inside the triangle. The expression  $1 - 14 + 9 - 7$  is written on the left side of the beam, and  $7 - 8 - 15 + 5$  is written on the right side. Both sides of the beam are underlined.
